#MadeInIndia Hackathon 2026

Facify

PROOF, NOT OPINION

Problem Statement ID ZAIML-005

Problem Statement Title Fake News & Deepfake Detection Platform

Track ZAIML | Artificial Intelligence & Machine Learning

Team ID

Team Name

Proposed Solution

India’s crisis is not mostly deepfakes — it is REAL media carrying a FALSE caption.

CONVENTIONAL DEEPFAKE CLASSIFIER

“AUTHENTIC — 94%”

Correct. And useless — the pixels were never fake.

FACIFY

DISPUTED

First seen 09 Oct 2023 · Gaza airstrike · 2 published fact-checks

Real case: 2023 Gaza footage circulated in India as an Indian missile strike.

1. **WhatsApp forward** — any app
2. **Share sheet** — one tap
3. **Evidence engine** — 5 collectors
4. **Verdict + sources** — clickable
5. **Reply card** — back to group

- **No platform API**
  Android share intent — no Meta approval, no number
- **Three verdict states**
  VERIFIED · DISPUTED · UNVERIFIABLE
- **10 Indian languages**
  Verdict returned in the user’s own language

Technical Strategy

ZeAI SOFT
EMPOWERING YOU

AI does the perception and the language. Evidence does the judgment.

CLIENT
Flutter / Android

- Share-intent receiver
- pHash · EXIF · C2PA
- Keyframe extraction
- Offline verdict cache

API
FastAPI · Cloud Run

- Gateway + orchestrator
- Redis pHash cache
- Postgres + pgvector
- Hash first, media on demand

COLLECTORS
parallel workers

- Temporal · Provenance
- Fact-check · Corroboration
- Forensics · Advisory
- Each returns a citation

VERDICT ENGINE
deterministic

- ~20 lines of rules
- Tiers A–D only
- No model in this path
- Gemini phrases output

EVIDENCE TIERS — the verdict is computed only from A–D

A Cryptographic
SynthID via Vertex
imageverification@001
C2PA · OpenAI Verify

B Temporal
Cloud Vision
Web Detection
→ Wayback CDX

C Adjudicated
Google Fact Check API
Alt News · BOOM
Factly · PIB

D Corroboration
100+ Indian sources
RDAP domain age
Typosquat distance

E Model score
Advisory only
never enters
the verdict

Flutter · FastAPI · Postgres + pgvector · Redis · Cloud Run

Gemini · Cloud Vision · Vertex watermark verification · MuRIL · Chirp STT — Gemini offline → verdict unchanged.

Feasibility and Viability

ZeAI SOFT
EMPOWERING YOU

DELIVERABLE COVERAGE

93% of the brief satisfied

Detect AI-generated & manipulated media	**90%**
News credibility & source reliability	**95%**
Explainable authenticity scores	**100%**
Identify misinformation patterns	**85%**
Fact-checking recommendations	**95%**

Deterministic AI-generation detection — no other team will have it

Reuses 100+ Indian source database across 10 languages

BUILD COST

₹0 marginal cost per verification

Wayback CDX	**free · no key**
Google Fact Check API	**free**
Cloud Vision Web Detection	**1,000 / month free**
Vertex · Gemini · Cloud Run	**GCP credits**

RISK → MITIGATION

Reverse-image API limits	pHash cache + fallback
Venue network fails	Pre-warmed local cache
Gemini quota / outage	Verdict path never calls it
Unwatermarked generators	Reported as probability

VIABILITY

Zero platform approval · works from every app on the phone · unverifiable claims become leads for real fact-checkers
